Year of Report: 2016-2017

The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. *(Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)*

Initiate Students for Submitting their Names in Voter List

Preface – India is one of the largest Democratic Nation. Democracy means to decentralise the power among common people. As per Abraham Lincon’s deification Democracy means ‘ To the people, by the people ,for the people’’. It means the Governments in democracy is thoroughly responsible for the public. The ultimate power rest with the common people.

Election process is the back bone in every democratic nation. India is having democratic system since independence. We have multi party system for election and for electing representatives. The elected members formed their cabinet ministry for taking all kind of decisions. All ministers are responsible for the parliament.

In India we found Local government at village level, Panchayat level, District level and State Government at state level where as a central Government at central level. There as a close chain and connection in between local to National Governments. Every Government come in to existence only with election. Now a days ‘Sarpanch’ at village level and ‘Mahapour’ at urban level also elected by getting general voting system. Hence, Voters are the Vital Part of democracy system.

Goal :-

The College Students are at the age of 18 to 20. In India one can be liable for getting voter’s Right at the age of completion 18 years. Each and every body who cross their 18th years can add his name in voter’s list. It is one of the good sign of matured democracy.

Due to the lack of awareness and negligence many collegiate Students are far away form voters list. Our institution takes keen interest in searching such candidates and promote them for including their name in voter list.

Our goal is that no student remains away form voter list for a strong and healthy democracy maximum capable person should be the voter. Sensible voter can change the future of our nation. They can give their good participation in making India. Hence, our institution arranges a camp about initiating students for submitting their name in voter list.

3. The practice :-

Name of a voter- Registration in voter list is an essential matter for better democracy. At college level we have the student council. All the members in student council are elected through college election. It is an ideal experience for the students about electing their leaders on student council.

Voting power can change the face of a nation. Every eligible person should add his name in voter list, so that he can do his vote to right person in right time. We can create pure democracy only with creating sensible voters.

Most of the youngsters are unaware about the ideology and agendas of different kind of parties pre ail in democracy. Our effort is to aware them about party system in India. The election process its importance and need in democracy. How nation building is dependents upon the right of vote in elation. All the above issues are inculcate with the fresh voters college students. Finally, we initiate them for adding up their name in voter's list.

4. Evidence of success :-

In India we have a frequent election like local bodies self government state legislatures assemblies and parliament etc. the Collegiate students can play a vital role in all such election. Hence we ask them for submitting their names in voter list.

As per our appeal most of the non voters who crossing their age limit approach us and participate in our campaign. Our institution facilitate them in putting their name in voter list with taking the help and guidance from government authorities. So our camp and aim is successful.

Problems Encountered and Resources

We manage resources from our management and make voters camp successful. At the time of getting camp we undergone with the following problems.

1. Many students have not hold their Adhar Card.
2. Most of the students are unable to produce their ration card.
3. After convincing two/three time most of the students were neglected towards our campus.
4. Government authorities are not shown much interest in making voters list.
5. Girl students were given their good support but they also are problem about adhar number.
6. Parents also are not supporting well to their children.
7. Many students are lazy and not conscious about getting name in voter list.

Conclusion- Having all the above difficulties we try our level best for succession the whole voter list camp. We got feasible success.

II. To Promote students for obtaining their employment card.

1 Preface :

India is supposed to be the highest young populate country; about 40% of the population is falling between 15 to 30. It is the strong work force of our nation most of the youngster are graduates and also have some technical degree. They are in search of some kind of job opportunity. Government also facilitate with starting schemes like "Swarn Jayanti Gram Swayam Rojgar Yojana" "Swarna Jayanti Shahari Rojagar Yojana" SKILL INDIA ,PRIME MINISTER Employment Generation Programme and Make in India etc.

Our college graduates are taking interest in search of job. Hence with the inspiration of our hon. President Adv. Hemant Kolekar and hon. Principal K. R. Patil we implement the

best practice of creating employment card of our college students. Many of the college graduates are aware about the various government employment Schemes and the basic requirement of that scheme. Hence we try our level best to develop such skills and Schemes among our students.

2 Goal :-

In recent years the number of educated persons are raising in India. The problem of educated unemployment is also rising with the educational progress. Our effort is to aware our students with various self-employment schemes by state and national government. All such schemes required employment card as it is one of the impotent requirement. The main goal of our practice is as under.

1. To display employment information and job advertisement on notice board.
2. To provide guidelines about self-employment programme
3. To aware students with different kind of competitive examinations.
4. To give incentives to students for creating their employment card.
5. To enhance students for registering their names in nearby employment centre.

3. The Context :-

India is the second largest country having huge population as per 2011 census, India have 120 crore of people among them 40% are youngster. As per the educational and technological changes the number of educated person as well as the number of unemployment person is raised day by day.

Our institutions is engaged in providing under graduate level education. Our fresh graduates are in need of guidance about job opportunities and about further education opportunities. Considering this core issue we run free consultancy centre as well as competitive exam centre in our institutions.

Both the centre are quite active and trying their level best for full filling the minor and major problems regarding the jobs faced by the college students.

One of our important attempts is to support them in generating their employment cards. Many college graduates are unaware about holding employment cards. The government employment centres issued such cards. Due to the lacking of information most students are away from such cards. Hence we implement the ideal best practice about facilitating the employment cards to our educated graduates.

4. The Practice :-

Our institution basically engaged in providing traditional education therefore our students are lacking about skilful and technological education. Those who are in the last year of their graduate they need real guidance about further path.

There are lot of opportunities available to such college graduates. In fields of marketing, banking, army, navy and education lot of opportunities are hidden. At our level we find out such opportunities through private and public employment centres and the

advertisement published in the national and regional news papers magazines etc. After collecting such advertisement we display them on the notice board for awareness of students.

The committee of competitive exam and consultancy centre take keen interest in providing such advertisement up to the students. The committee also try for getting them employment cards which is very useful for searching liable job opportunity to educated unemployed persons.

In our institution we implement the best practice on “Employment registration and job fulfilment scheme” our college student give full support to this scheme.

5. Evidence of Success :-

Many students are happy on Practice more than hundred students were registered and enrolled their name to employment centre. The students who completed three or more years of their registration liable for monthly stipend scheme called “Unemployed stipend scheme” run by the national and state government.

Our institutional practice prove that lot of young graduates are willing to have some kind of skilled or unskilled job. They rush with their documents for registering and getting job cards. Their enthusiasm suggests the evidence of success of our best practice.

6. Problems Encountered and Resources :-

At the time of implementation of employment card generation scheme our intuition undergone through following problems-

1. Most of the college graduates are unaware about various government scheme.
2. Most of the students are willing only in clerical type of services.
3. Many of the students are not showing their name towards authorized employment centres.
4. It is quite difficult to generate employment card each and every student of our institution.
5. Limitation of financial resources is one of the major problem to arrange such camp frequently.
6. Many students are not responded even our phone calls.
7. Some of the college graduates were missed their legal documents.

Even though we face some of the above said problems we try our level best to contact our college graduates and appeal them to produce at least their employments card.

Conclusion :-

Thus our institution get efforts for facilitate and preparing students for making their further better as well as make ease in searching job opportunity.
